RBS RIGA BUSINESS SCHOOL
Riga Technical University

Technical strengths

Leadership strengths

Computer Science (8+)

Mathematics (5+)

Accounting

Natural Sciences

Writing and Reporting

Art

Psychology

Project Management

Communication

… and much more

Skills of BITL graduates:

- **Understand** a business project at all levels, from technical details to high-level management

- **Communicate** to deliver concepts to all stages, from coding bugs to sales pitches

- **Create** solutions to complex problems, as a team member and innovation leader

What is an education?

Not just a piece of paper
Not just the name of your degree
Not just the grade you get

Your education consists of:
- The impact you have on other students, instructors
- How you use the skills you learn
- How you change your thinking

We give you the skills, you realize their potential

Skills for jobs / skills for careers

You will (probably) have a job whose description does not yet exist

The job you have is not just a position, not just a title. It is impacted by:

- how you execute your responsibilities
- how you work with the people around you
- how you manage your team
- how you communicate

RBS **can not** prepare you for every job

RBS **can** give you the tools necessary to succeed at any job

The BITL program **will** prepare you for the **jobs of the future**
